

# LATINO NONPROFIT ACCELERATOR

LATINO  
COMMUNITY  
FOUNDATION

## BOLD LEADERS. SUSTAINABLE ORGANIZATIONS. AN UNSTOPPABLE MOVEMENT.

Through the Latino Nonprofit Accelerator, the first-ever incubator for Latino nonprofits, LCF invests money, provides marketing training and fundraising mentorship to amplify the voice and accelerate the impact of grassroots organizations.

## INVEST IN THE LEADERSHIP WE NEED

**Latino-led nonprofits working on the frontlines of social change are the engines of opportunity and empowerment that our communities need.** Yet, in California only 1.1% of philanthropic dollars are invested in Latino-led organizations - despite the fact that Latinos are the largest ethnic group in the state. It is difficult for organizations to meet the unprecedented need for their work without more resources. At the same time without a strong foundation in fundraising and marketing most organizations struggle to secure investments.

At LCF, our Accelerator is about **unleashing the powerful assets of each organization and building their self-determination and skills for long term sustainability.** Over the course of 15 months, we stand alongside our cohort of Latino-led organizations and equip them with the fundraising, marketing, and evaluation skills they need to thrive.

The Accelerator provides one-on-one year-long fundraising and evaluation coaching, support from Design Action Collective and retreats that help create culture change at our institutions. Our cohort learning model builds solidarity amongst Latino leaders and grounds our work in love, culture and power.

## MEET OUR COHORT

**“LCF is building a new model for philanthropy. One that is community centered. When they say philanthropy is about love they really mean it - and we feel it. We are honored to be chosen for the first-ever Latino Nonprofit Accelerator.” – George Galvis, Executive Director, CURYJ**
