LCF IS ON A MISSION TO UNLEASH THE POWER OF LATINOS IN CALIFORNIA.

LCF fulfills its mission by building a movement of civically engaged philanthropic leaders, investing in Latino-led organizations, and increasing political participation of Latinos in California. LCF connects donors to emerging leaders, community organizations with funding, and advocates with key decision makers. At LCF, our approach is rooted in the very essence of what it means to be Latino, with a fierce tenacity and a focus on community and authentic relationships.

LATINO NONPROFITS

We believe in our community’s ability to lead change. That is why we invest in Latino-led nonprofits working on the frontlines of social change. Our grantees have the entrepreneurial vision and passion to transform their communities. We stand beside them to get it done. Below you will find a working list of Latino nonprofits in the Central Valley. To see our full database of Latino nonprofits in California, visit latinocf.org/map.

THE CENTRAL VALLEY

The economic engine and the heart and soul of California—the 6th largest economy in the world.

The Central Valley is home to a $35 billion agricultural industry fueled by Latino and immigrant labor. Comprising half the population, Latino families from the Valley are proud, resilient people who believe in the promise of the American dream. Yet, they are battling the reality of poverty, pollution, and violence daily. Fresno, Modesto, and Bakersfield-Delano—cities with the highest revenues from agriculture—are among the top five U.S. regions with the highest percentage of extreme poverty.

The fight for economic prosperity has been hindered by a severe underinvestment in Latino leaders—especially those on the frontlines working on issues of social justice, civic leadership, and political advocacy. Now more than ever, these same nonprofits are stepping up to defend immigrant communities from the aggressive anti-immigrant policies and helping families heal from the trauma of possible separation. It’s time to invest in the infrastructure of grassroots, Latino nonprofits who have served as trusted hubs for decades!
