

LOVE not fear FUND

MARCH 2020 COVID-19 Pandemic Crisis Declared

The Latino Community Foundation (LCF) launched the Love Not Fear Fund to ensure the most vulnerable Latino communities and the organizations that serve them survive the COVID-19 pandemic and emerge ready to flex their leadership and power. LCF stands by organizations in this difficult time— with love, generosity, and investment. Funding supports grassroots Latino-led organizations with strong ties to the undocumented, rural Latino families they serve. These leaders are best equipped to respond to the crisis— they are nimble, resourceful and quickly pivoted their efforts to meet the challenges faced by working families. To sustain these critical efforts, organizations need flexible investment, technology and equipment, and capacity for the long run.
