

Redefining Philanthropy

The Latino Community Foundation exists to unleash the power of Latinos. We put **love, culture, and people** at the center of our work. Our Giving Circle gatherings happen over dinner, storytelling, and a lot of laughter.

How Our Giving Circles Work

We **unite people** from a geographic area or shared interest **pool our collective resources to invest in local community organizations.**

Giving Circle members identify and select their **funding priorities.**

LCF brings **community experts** to educate members on their priority areas.

Circles work with the Latino Community Foundation to **identify Latino-led organizations** aligned with their funding area.

Together, giving circle members vote to select top **three finalists to invite to Grants Night.**

At **Grants Night** nonprofit leaders pitch in person and members collectively vote that evening on how to invest their dollars.

Each Circle decides how to **partner** with their grantees and participate in other civic engagement efforts led by LCF.

The **Annual Retreat and mixers** engage the entire Latino Giving Circle Network to build community and familia.
